

# Grace Covenant Church Family Meeting

January 17, 2010

# Grace Covenant Church Vision

*"To proclaim the gospel in the  
Jacksonville area and see people  
added to the church to the  
Glory of God"*

# Pursuing the Vision

1. A commitment to reach the community with the gospel and various types of outreach.
2. A commitment to grow in deeds of kindness, love and mercy within our community as a demonstration of God's love to others.

# Current Situation

- There is limited availability of space at this church facility because the SDA church has a full calendar in order to care for and support their members and ministries.
- We don't currently have use of space that can be a bridge from our Sunday meetings to other days of the week.

# Strategy for 2010

- Find a multi-purpose room that we can use in addition to this facility while we continue to grow here.
- This space can be used for training, Youth, outreach events, Singles, seminars, Men & Women's meetings, and College outreach.

# Answer to Prayer

- Christian Family Chapel has granted us the use of 800 sq feet of meeting space on property they recently purchased for future development located near us.
- We will have this space available all day on Tuesdays & Saturdays and if needed occasionally on Fridays.

# Property On SR-210

- Our property on 210 is listed for sale at \$850K.
- There were some opportunities in the past that we could have pursued if there had been \$700K + available in cash.
- If the property doesn't sell soon, we may want to partially develop it for outdoor events and other ministry opportunities.

# Strategy for 2010

- We must mobilize and act now on this new opportunity before us in using the available space for fresh ministry and outreach.
- All of us should prayerfully consider how specifically God wants to use each of us this year in our mission of reaching the city of Jacksonville with the gospel.
